Dear Carlos,

I must take the time to tell you how wonderful it has been dealing with AIR-KOOL during the purchase & installation of my central air-conditioning & heating system. Having spent two weeks with your technicians & installation crews, I must tell you how polite, respectful & methodical they were.

You, Carlos, are a rare ^{Breed} ~~Breed~~ indeed! A man whose word actually means something. You have followed through on all your commitments. You have been responsive to my many questions & quick to send your technical staff to my home to fine-tune both systems during their initial start-up phases.

Am just sorry that you don't do roofing, painting, car repair so that I could have this same peace of mind with my other needs.

Miss You All
Jack Mozer
